

# K M XY-95 cross table

## For the high-end sector

- Machine construction
- Laboratory work
- Optics

## High-precision design

- Solid cast iron body
- Pretensioned cross roller guides  
Adjustment range +/- 3.5 mm  
Spring-pretensioned  
Scale-graduated adjusting screws  
0.01 mm
- Locking via clamping plate
- Dimensions across corners 95 x 95 x 40 mm

## Advantages

- Operation from one side
- Optimal ergonomics
- For building into restricted spaces
- No adjustment during locking
- Fastening with adhesive band possible
- Fastening via drilling pattern as per customer requirements
- Available in sizes 95 x 95 mm and 155 x 155 mm edge length
